

# An official public notice from the state of Tayos

## Public Notice of Tayos Mission Statement

Notice to one is notice to all under the doctrine

Notice to agent[s] is notice to principall[s], and notice to principall[s] is notice to agent[s]

By the Grace of God Almighty, all states of the world now take due notice of the facts herein stated that the sovereign State of Tayos has officially set to sail and is now navigating in international law under its own sovereignty and from the same wind that it also officially announces that it has elected to adopt its new benevolent Mission Statement which consists in becoming a niche and specialized alternative state for worldwide foreign citizens who may be currently dissatisfied with the objectives and goals of their current host states of residence. While Tayos entirely respects the individual goals and decisions of its peer states, it remains a recognized fact that dissatisfied citizens feeling desperate and having nowhere to express their dissenting views within their state will in time result in an escalating probability of disaster, and as their numbers continue to progress, these citizens may eventually begin to engage in organized seditious activities which may irrevocably damage the political stability and commercial outlook of their host states.

Therefore the lack of alternatives for these discontent citizens is a potentially serious risk and a growing factor of destabilization to world equilibrium. By offering its niche immigration alternative to "would be dissenters", the State of Tayos offers an outlet to the dissatisfied where they now have a choice and can hereby rather elect to immigrate, and this causing a re-balancing of the equation and consequently resulting in the relief of the "political pressure" which could otherwise mount within the hosting states. The State of Tayos considers that it offers a valuable and much required international service as it acts as a benevolent political "balancer" and "equalizer", and consequently the State of Tayos acts as a promoter and purveyor of peace. Its unique offering will result in the progressive relief of seditious pressure worldwide and this will inevitably result in improved international stability, and consequently, to world peace.

With these otherwise discontent citizens now feeling satisfied within the protection of the State of Tayos as their new residence, these citizens will henceforth be able to thrive to their content, and this within the confines of a fully neutral, peaceful and diplomatic international state. The presence of Tayos therefore functions as a buffer acting in full symbiosis with your own countries and concordantly will help ensure international equilibrium. The imminent arrival of Tayos in the international community is therefore a Godsend in re-balancing the fluctuations of behavioral anomalies consequently acting as a catalyst towards the promotion of the stability of the world and consequently peace, prosperity and justice for all will finally be free to flourish.

Therefore the State of Tayos respectfully request from all states of the world that they remain understanding of the effort to act as a worldwide "pressure valve" and if they are so inclined, that these states also offer help and assistance in facilitating the outreach to these discontent citizens in order to render them aware of the alternatives available to them so that if they so determine, that they may choose to immigrate to our alternative state which in consequence will relieve your own states of otherwise potentially troublesome elements. The State of Tayos takes pride in being the missing link to the complex puzzle of world peace by taking on the mission of becoming the benevolent host and catalyst to the balance of seditious elements.

The State of Tayos is thankful for your attention and from its neutral stance offers to all of its friends and allies which include all of the states of the world its most sincere regards and we looks forward to achieving universal peace together.

Signed by our state as confirmation and evidence of these facts on this 3<sup>rd</sup> day of March, 2023:

By: 

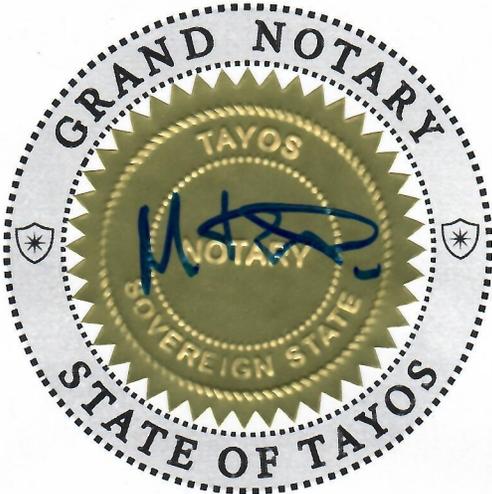

-Michael Leonard Anderson

-President of the sovereign State of Tayos

# Notary Public as Witness and as Jurat Certificate

Tayos }  
International County }
